The Port Authority of Kansas City (Port KC), The Downtown Council of Kansas City (DTC), and the City of Kansas City, Missouri (KCMO), in coordination with the Missouri Department of Transportation (MoDOT) and the Federal Highway Administration (FHWA), is preparing a Location Study and National Environmental Policy Act (NEPA) investigation of the construction of a structural deck over Interstate 670 (I-670) in Kansas City, Missouri. The study will be referred to as the South Loop Project. The South Loop Project is an environmental study that will investigate and identify improvements to connection of city districts and transportation networks.

MoDOT and FHWA signatures grant approval to distribute this information for public and agency review and comment. Such approval does not commit to approve any future requests to fund the proposed alternative.
