

TABLE OF CONTENTS

1.0	Purpose and Need	1
1.1	Project Area Description and Study Overview	1
1.2	Purpose and Need Summary	5
1.3	Elements of the Purpose and Need	5
1.4	Logical Termini and Independent Utility	9
2.0	Alternatives.....	11
2.1	No-Build Alternative.....	11
2.2	Build Alternatives	11
2.3	Build Alternatives Screening Process and Criteria	18
2.4	Summary of Alternatives Screening and Evaluation	19
2.5	Selection of the Preferred Alternative.....	22
2.6	Other Considerations for the Preferred Alternative	23
3.0	Environmental Analysis	26
3.1	Land Use and Zoning	26
3.2	Demographics and Economics	28
3.3	Neighborhoods and Community Resources	31
3.4	Socioeconomic Impacts.....	33
3.5	Parks, Recreation, and Section 4(f) Resources.....	39
3.6	Bicycle and Pedestrian Facilities	40
3.7	Right-of-Way and Displacements.....	42
3.8	Transportation	42
3.9	Cultural Resources and Section 106.....	46
3.10	Construction	51
3.11	Emergency Routes	52
3.12	Water Resources	52
3.13	Surface Waters and Water Quality	53
3.14	Floodplains	55
3.15	Wildlife and Habitat	55
3.16	Threatened and/or Endangered Species	56
3.17	Geology and Soils	58
3.18	Air Quality	59
3.19	Noise	61

3.20	Hazardous Materials	63
3.21	Visual Resources	71
3.22	Utilities	72
3.23	Safety, Security, and I-670 Tunnel Considerations	73
3.24	Cumulative and Indirect Effects.....	77
3.25	Resource Impact Summary.....	79
4.0	Public Involvement and Agency Coordination	80
4.1	Public Meetings	80
4.2	Stakeholder Outreach.....	83
4.3	Public Surveys	84
4.4	Agency Coordination	85
5.0	Environmental Commitments and Mitigation	89
6.0	References.....	92

APPENDICES

A	Preliminary Preferred Alternative Construction Plans
B	Traffic and Safety Analysis Reports
C	Cultural Resource Materials
	- Attachment A – Section 106 Cultural Resource Assessment
	- Attachment B – Programmatic Agreement (Draft)
	- Attachment C – SHPO Response
D	Noise Technical Memorandum
E	Public Involvement Materials
F	Agency and Tribal Coordination Letters

LIST OF TABLES

2-1	Alternatives Screening Criteria Matrix	20
3-1	Population Trends	28
3-2	Racial Makeup of the Project Study Area.....	28
3-3	Household Characteristics	29
3-4	Employment Growth Trends.....	30
3-5	Unemployment Trends.....	30
3-6	Block Groups with Minority and Low-Income EJ Populations.....	35
3-7	Trails Within a Half-Mile of the Project Study Area.....	41
3-8	Existing, Future No-Build, and Preferred Alternative Local Intersection LOS.....	44
3-9	Predictive Safety Analysis Results	45
3-10	Federal & State Listed Threatened or Endangered Species.....	56
3-11	Tunnel Effect (dBA) Added to Noise Levels Based on Distance from Roadways and Tunnel Openings	62
3-12	Hazardous Material Sites Within 500-Feet of the Project Study Area – EDR Databases.....	64

3-13	Hazardous Material Sites Near Project Study Area – MoDNR Database Only	70
3-14	Summary of Impacts	79
4-1	List of Lead and Participating Agencies	86

LIST OF FIGURES

1-1	Project Location Map.....	2
1-2	Project Study Area Map.....	3
1-3	Socioeconomic Characteristics for Census Block Groups.....	6
1-4	Transportation Surrounding the South Loop	8
1-5	I-670 Corridor in the South Loop Project Area	9
2-1	Western Superblock Build Alternative	12
2-2	Typical Cross-Section for Eastbound Truman Road	13
2-3	Eastern Superblock Build Alternative	14
2-4	Individual Blocks Build Alternative	15
2-5	Double Superblock Build Alternative.....	17
3-1	Conditional and Mandatory Requirements for Tunnels.....	74

LIST OF EXHIBITS – Located at the end of corresponding chapter

3-1	Land Uses
3-2	Zoning Designations
3-3	Community Resources
3-4	Minority Populations
3-5	Low-Income Populations
3-6	Limited English Speaking Populations
3-7	Parks and Recreation Areas
3-8	Bicycle and Pedestrian Facilities
3-9	Transportation Routes
3-10	Water Resources
3-11	Noise Sensitive Receptors
3-12	Hazardous Material Sites
3-13	Utilities
4-1	Survey #1 Responses by Zip Code
4-2	Survey #2 Responses by Zip Code
